WHY ATTEND?

The course has been designed to comprehensively educate participants on best practice rehabilitation methods and prosthetic techniques for lower limb amputees.

The educational needs of trainees in Rehabilitation Medicine and health professionals will be addressed.

Course content will include a balance of theory and clinical practice to be presented by professionals working in the fields of education and amputee service provision.

FACULTY

Leading specialists from:

- Alfred Health
- Royal Children's Hospital
- Royal Melbourne Hospital

These organisations are recognised as centres of excellence in amputee service provision and education.
